

# Testing for the Presence of Living Organisms in the Soil

## Page 1

### Results

Name		School	
Class		Date	

Test Tube	Observation
Control	
A	
B	
C	
D	

### Conclusion

Had the bromothymol blue in the control tube changed colour? Explain your answer.

What is this tube used for?

# Testing for the Presence of Living Organisms in the Soil

## Page 2

### Results

Name		School	
Class		Date	

Compare any colour changes for the other four tubes.

What do these results indicate to you about the numbers of living organisms in the different soil samples?

Can you think of an explanation for this?
