6. To see if energy is given out by germinating seeds

Aim

To see if energy is given out by germinating seeds.

Method

1. Set up the two thermos flasks as shown in the diagram below:

2. Take the temperature of the inside of the thermos flasks over several days.

3. Record your results.

Results

Day	Temperature (°C) of the flask with dry seeds	Temperature (°C) of the flask with soaked seeds
1		
2		
3		
4		
5		
6		
7
