

**Groups of Animals**  
**Question 2 Page 1**

Name		School	
Class		Date	

For each of the following list of five animals choose the odd one out and give a reason for your choice.

example	snail	slug	mussel	spider	octopus
1	water boatman	great diving beetle	tadpole	dragonfly	caddisfly
2	hyena	cheetah	lion	tiger	panther
3	bee	flea	wasp	dragonfly	butterfly
4	pelican	seagull	gannet	albatross	penguin
5	snake	frog	crocodile	alligator	lizard
6	starfish	crab	lobster	shrimp	woodlouse
7	caterpillar	maggot	worm	dragonfly larva	caddisfly larva
8	cow	sheep	horse	pig	chicken
9	whale	shark	dolphin	seal	porpoise

Use it to show one *similarity* and one *difference* between them.  
 The first in the list has been completed for you as an example.  
 Remember that the answers must be relate to their group or structure and not where each animal lives or what it feeds on.

NUMBER ON LIST	ODD ONE OUT	REASON
EXAMPLE	spider	all of the others are molluscs
